# SMFM(I) Pragnya International Conference

## ANNUAL MEETING (2026)

26<sup>th</sup> (Saturday) & 27<sup>th</sup> (Sunday),

September 2026

Bengaluru, Karnataka

A dedicated book on preeclampsia from both Indian and global perspectives.

Secure your copy now!

International Society  
of Obstetric Medicine

- A Collaboration between SMFM (I) & ISOM
- First of its kind effort to cover evidence-based topics related to Preeclampsia from the Indian & Global perspective.
- Includes 17 sections & 80 chapters, contributed by approximately 150 authors from India & globally
- A dedicated effort to reduce morbidity & mortality due to Preeclampsia.

### PREECLAMPSIA

#### AN ENIGMA UNRAVELLED

##### A Global Perspective

Preeclampsia continues to be a significant global health issue, even in modern obstetrics. Originally characterised by edema, hypertension, and albuminuria, our understanding of preeclampsia has expanded to recognize it as a complex disorder with long-term implications for maternal and fetal health. While delivery is currently the only cure, there has been notable progress in preventing and predicting preeclampsia. However, there is still a significant disparity in the prevalence of preeclampsia and its associated morbidity and mortality between developed and developing countries. The book, "Preeclampsia-An Enigma Unravelling," represents a comprehensive effort to improve our understanding of hypertensive disorders of pregnancy and enhance the quality of care for mothers with preeclampsia.

Prakash K Mehta   Revathi Soundararajan   Kenneth K Chen   Muniswaran Ganesan

The editors, Prakash K Mehta, Revathi Soundararajan, Kenneth K Chen, and Muniswaran Ganesan, are actively involved in the clinical and research aspects of hypertensive disorders of pregnancy. They have shared their thoughts, knowledge, and wisdom in this book dedicated to preeclampsia as a collaborative effort with authors from across India and the rest of the world. The book has been designed to be holistic, systematic, and focused, yet up-to-date and relevant for all healthcare professionals who are involved in the care of mothers with this enigmatic disorder.
